ABOUT US

Stopoil represents more than six decades of manufacturing discipline shaped across three generations. Established in 1960, the business was founded around a singular objective: preventing leakage where performance matters most. What began with sealing technology grew into a manufacturing discipline defined by precision, material expertise, and an enduring understanding of how components perform under demanding conditions. The company has evolved from a specialist sealing manufacturer into a diversified producer of engineered rubber, metal, and elastomeric components serving industries where reliability is expected rather than discussed.

While our origins lie in seals designed to contain oil, pressure, and motion, our capabilities today extend far beyond them. **Oil seals, O-rings, hydraulic, water and pneumatic** sealing elements remain an important part of our heritage, but they are only a fraction of what leaves our factory floor. Coupling elastomers, vibration dampers, bellows, diaphragms, grommets, bushes, mountings, bonded seals, brake components, spacers, wear sleeves, packings, and a wide range of industrial

rubber ,machined components and machined assemblies have become part of our manufacturing portfolio built over decades of customer requirements, engineering challenges, and continuous refinement for industrial applications across sectors and geographies.

From our facility in Coimbatore and our office in Dubai serving the Middle East and international markets.

OUR CERTIFICATES

CERTIFIED QUALITY. GLOBAL CONFIDENCE.

MANUFACTURING

A comprehensive range of sealing products for hydraulic, pneumatic, rotary, and static applications.

MATERIALS

HIGH QUALITY COMPOUNDS
FOR EVERY APPLICATION

MATERIAL	KEY CHARACTERISTICS	TYPICAL APPLICATIONS	TEMPERATURE RANGE (APPROX.)
NBR		Excellent oil & wear resistance	-40°C to 120°C
VITON*		High temperature & chemical resistance	-20°C to 200°C
EPDM		Water, steam & weather resistance	-50°C to 150°C
SILICONE		High flexibility & temperature resistance	-60°C to 230°C
PTFE		Chemical resistance & low friction	-200°C to 260°C
PU		High abrasion & load bearing	-30°C to 110°C

High
Temperature Resistance

Chemical Resistance

Water Resistance

Low Friction

Long Service Life

INDUSTRIAL RUBBER COMPONENTS

BUILT FOR REQUIREMENTS WHERE STANDARD **CATALOGUE PRODUCTS ARE NOT SUITABLE.**

RUBBER WASHERS

LEVELING FEET

RUBBER BELLOWS

RUBBER BUSHES

RUBBER DRAIN PLUG

RUBBER DUMMY CAP

GASKETS

RUBBER PADS

RUBBER CABLE GROMMET

**CUSTOM-DEVELOPED COMPONENTS MANUFACTURED
FROM CUSTOMER DRAWINGS, SAMPLES, SPECIFICATIONS,
AND APPLICATION REQUIREMENT**

ENGINEERED COMPONENTS

PRECISION MOULDED ELASTOMERIC COMPONENTS USED IN
SEALING, PROTECTION, MOVEMENT, AND STRUCTURAL SUPPORT APPLICATIONS.

BRAKE PADS

BRAKE SHOES

DUST CAPS

CIRCLIPS

COPPER WASHER

DIAPHRAGMS

END CAPS

FLANGE WASHER

GASKET SPLIT HOLDER

MS INPUT & OUTPUT SPACER

RUBBER ISOLATED DISC

RUBBER SLEEVE GROMMET

RUBBER VALVE DISC

**ELASTOMERIC COMPONENTS DEVELOPED FOR PROTECTION, FLEXIBILITY
INSULATION, SEALING, AND DURABILITY**

MOTION, VIBRATION & POWER TRANSMISSION

A RANGE OF COMPONENTS USED IN POWER TRANSMISSION SYSTEMS AND MECHANICAL ASSEMBLIES.

DAMPERS

COUPLING ELASTOMERS

GUIDE RINGS

WEAR SLEEVES

WHEEL SPACER

COMPONENTS ENGINEERED TO TRANSMIT POWER
ABSORB VIBRATION, REDUCE WEAR, AND IMPROVE EQUIPMENT RELIABILITY.

OUR PRODUCTS

SEALING SOLUTIONS

A COMPREHENSIVE RANGE OF SEALING PRODUCTS
FOR HYDRAULIC, PNEUMATIC, ROTARY, AND STATIC APPLICATIONS.

BONDED SEALS

CUP SEAL

DUST SEAL

HYDRAULIC SEAL

NBR CHEVRON PACKING

VITON O RING

O-RINGS

OIL SEALS

PNEUMATIC SEAL

RUBBER PLUNGER ENDS

SPRING ENERGIZED SEAL

VITON OIL SEAL

TURCON STEP SEAL

V-RING

VITON BONDED SEAL

VITON CHEVRON PACKING

WIPER SEAL

ROD SEAL

COMPONENTS DESIGNED TO CONTROL FLUIDS, PRESSURE, MOTION, AND CONTAMINATION
ACROSS DEMANDING OPERATING ENVIRONMENTS.

INDUSTRIES WE SERVE

01 TRANSPORTATION & AUTOMOTIVE

- Automotive manufacturing
- Railways

02 INDUSTRIAL EQUIPMENT

- Compressors
- Gearboxes
- Pumps
- Material Handling Systems

03 PROCESS INDUSTRIES

- Cement
- Sugar
- Fertilizer
- Refineries

04 ENERGY & POWER

- Power Generation
- Transformers

05 MARINE & OFFSHORE 06 AEROSPACE & DEFENCE

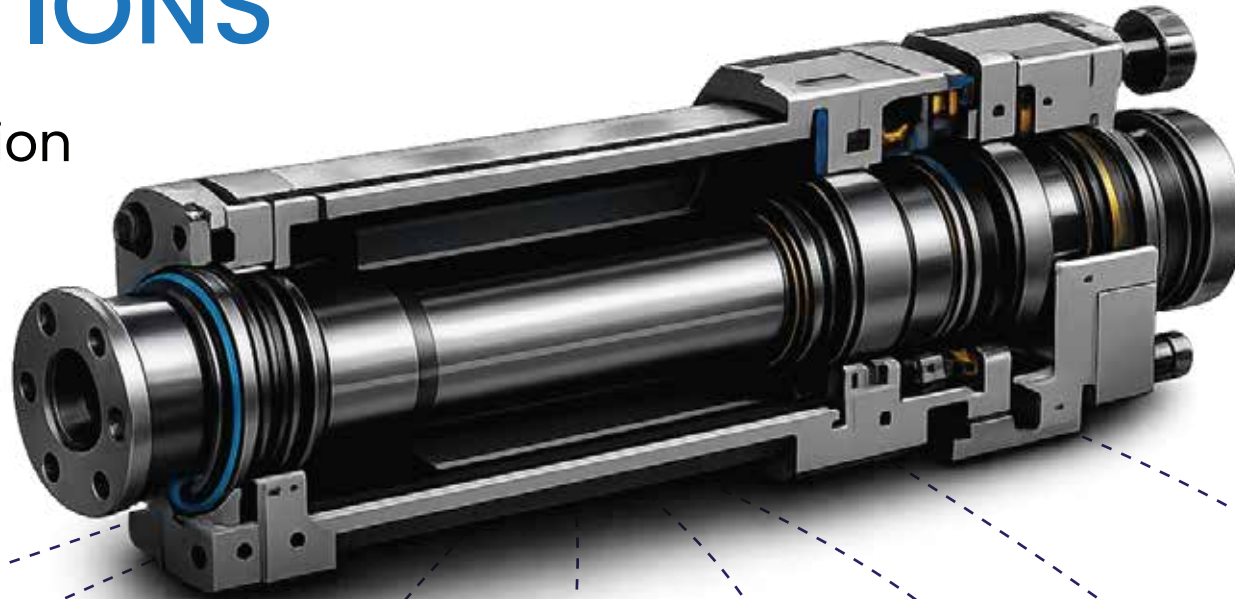

07 TEXTILE MACHINERY 08 HYDROPNEUMATIC 09 PHARMACEUTICAL

APPLICATIONS

High Quality Compounds
for Every Application

GLOBAL PRESENCE

STOPOIL positions itself as a quality-focused Indian manufacturer.

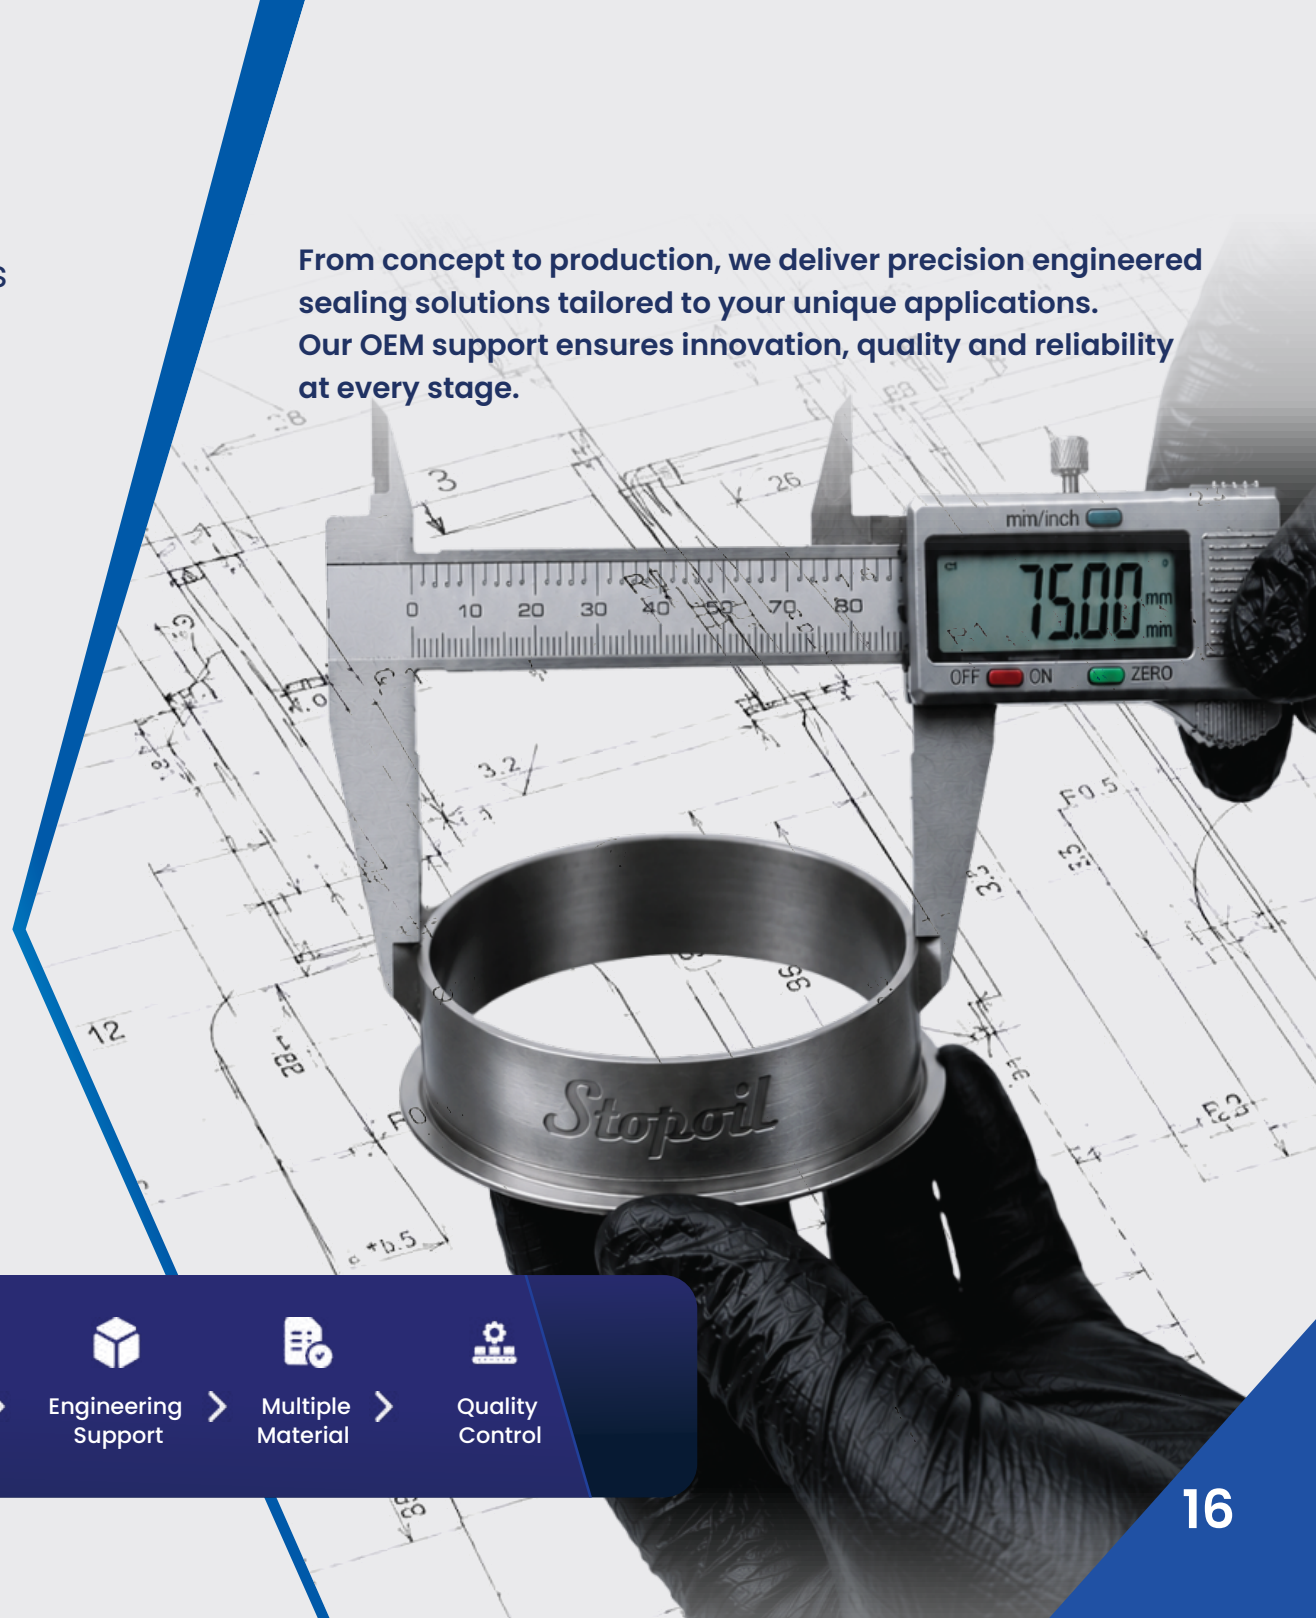

Stopoil channels its Coimbatore-bred manufacturing expertise onto the global stage from Dubai—the nexus of world commerce. From this strategic hub, we deliver precision-engineered solutions to OEMs across the UAE, the broader Middle East, and steadily to Africa and Sri Lanka, equipped to support emerging markets wherever they take shape.

OEM SUPPORT

Your Partner in Every Custom Sealing Solutions

-  Custom Design & Development
-  Application Engineering
-  Material Selection / Optimisation
-  Prototype Manufacturing
-  Testing & Validation
-  Tool Development
-  Production Scaling
-  Volume Manufacturing
-  Reverse Engineering
-  Long-Term Collaboration

From concept to production, we deliver precision engineered sealing solutions tailored to your unique applications. Our OEM support ensures innovation, quality and reliability at every stage.

QUALITY

Quality in every Product We Manufacture

At the centre of this capability is a deep understanding of materials and process. Rubber is deceptively complex; performance is determined by countless decisions made long before a component enters service. Rubber is often overlooked until it fails. Yet the integrity of a seal, bushing, diaphragm, mounting, bellows, gasket, spacer, or damping element can determine the reliability of an entire system. Understanding this relationship has guided our work for decades and continues to influence every component that we make. The knowledge accumulated through thousands of production runs, specialised compounds, precision tooling, and rigorous inspection continues to shape every product we manufacture.

- ✓ Incoming Material Inspection
- ✓ In-Process Quality Control
- ✓ Precision Dimensional Checks
- ✓ Application-Based Testing
- ✓ Final Inspection
- ✓ Controlled & Consistent Output
- ✓ Continuous Improvement

Testing machine :

- ✓ Tensile & Elongation Testing Machine
- ✓ Compression Testing Machine
- ✓ Specific Gravity Testing Equipment
- ✓ Shore A Hardness Tester
- ✓ Ash Content Testing Furnace

WHY STOPOIL

For over five decades, Stopoil has been a trusted name in sealing solutions, earning the confidence of customers through unwavering quality, reliability, and performance. Our products are not just manufactured—they are engineered with precision, backed by decades of expertise, and crafted to meet the highest industry standards. At Stopoil, quality is never compromised; every oil seal and sealing component undergoes stringent quality checks to ensure consistent durability and superior performance. Our highly skilled and dedicated workforce is driven by a culture of excellence, innovation, and continuous improvement, enabling us to deliver products that exceed customer expectations.

When you choose Stopoil, you choose a legacy of trust, uncompromising quality, and a commitment to excellence that has stood the test of time. We don't simply supply sealing solutions—we build lasting partnerships through products you can depend on.

 **Three Generations of Manufacturing Expertise**

 **Built Around Customer Requirements**

 **Beyond Standard Components**

 **Material Knowledge That Matters**

 **From Concept to Production**

 **Integrated Manufacturing**

 **Precision Through Process Control**

 **Reliable Performance in Demanding Applications**

 **OEM Development Support**

 **Global Market Presence**

ENGINEERING CHALLENGES WE SOLVE

- Leakage Prevention
- Vibration Isolation
- Abrasion Resistance
- Chemical Compatibility
- High Temperature Performance
- Dynamic Sealing Applications

PRECISION MANUFACTURING SINCE 1960.
